

Based on Membrane Keyboard, with dedicated electronics.

LP 3907

**Category** : PLC  
**Model** : LP 3907  
**Application:** Home Automation, Industrial Automation, and many more  
**Material** : PCB and Membrane  
**Layout** : Customized

## Specification

**Number of Key** : 6 key With Backlight  
**Backlight Color** : Green, Red  
**Supply Voltage** : 24V DC  
**Mounting Style** : Pasting  
**Operating Temperature:** -20 C ~ +65 C

## Feature

- It Works on PLC systems and also uses for Home Automation
- Advanced Human-Machine Interface Design with 6 Membrane Key with Green & Red Backlight
- PCB-based membrane keypad with Dynamic Design and Layout.
- Dust Proof, Anti-Interference, which make it a good choice for public use or harsh environment
- Excellent Durability for a Long life span of Membrane Keyboard
- Robust
- Tactile Feedback
- Customized product can be made as per customer requirement
- This is customized product used in Swimming Pool.

## Applications

Medical Equipment, Industrial Automation, Home Automation, PLC, and many more.
